#### JOINT VALVE ROUTINE & SHUTDOWN MAINTENANCE FRAGMENT

| OPENING                          |
|----------------------------------|
| <b>Preparation</b>               |
| <b>LOTO</b>                      |
| Depressurize                     |
| Isolate                          |
| <b>Inspect as found</b>          |
| TAG                              |
| Inspect Body                     |
| Inspect Bonnet                   |
| <b>Functional Check</b>          |
| Manual Operation                 |
| Check for Open/Close             |
| <b>Removal &amp; Disassemble</b> |
| <b>Drop the Valve</b>            |
| Scaffold                         |
| Drop                             |
| Move to shop                     |

| REFURBISHMENT                   |
|---------------------------------|
| <b>Shop Activities</b>          |
| <b>Dismantle Valve</b>          |
| <b>Clean</b>                    |
| Remove Dirt                     |
| Remove Scale                    |
| Remove product                  |
| <b>Lubricate as recommended</b> |
| Lubricate stem                  |
| Lubricate gearboxes             |
| Lubricator actuator links       |
| <b>Seal &amp; packing</b>       |
| Replace valve gaskets           |
| Replace valve packing           |
| Replace O-rings                 |
| Replace seals                   |
| <b>Machining if needed</b>      |
| Machine worn out parts          |
| Machine gasket seats            |
| Machine stem to free            |
| <b>Reassemble</b>               |
| Boxup Valve                     |
| Connect Body to Bonnet          |
| Boltup end connections          |
| <b>Valve testing</b>            |
| Leak Test                       |
| Pressure test in shop           |
| <b>Painting</b>                 |
| Final Visual Inspection         |

| REFIXING                                      |
|-----------------------------------------------|
| <b>Valve return &amp; refix</b>               |
| <b>Rig Back</b>                               |
| Fix in location                               |
| Check direction and angle                     |
| <b>Bolting</b>                                |
| Clean mating flange surfaces                  |
| Replace gaskets                               |
| Boxup in location                             |
| Torque to appropriate value                   |
| <b>Reinsulate for HOT &amp; Cold Services</b> |
| <b>Deblind</b>                                |
| <b>Descaffold</b>                             |
